BOARD'S REPORT

To,
The Members
Manappuram Home Finance Limited

Your Directors are pleased to present the 11th Annual Report on the working of the Company with the Audited Accounts and the Report of the Auditors for the financial year ended March 31, 2021.

1. Financial Results at a glance

	<u>Rs. In lakhs</u>	
Description	2020-21	2019-20
Total Revenue	9,713.16	8,567.32
Profit / (Loss) Before Tax	1,370.08	992.30
Less: Provision for Taxes/Deferred tax	341.11	(64.06)
Net Profit / (Loss) after tax	1,028.97	1,056.36
Profit / (Loss) b/f from previous years	(530.72)	(1,361.31)
Amount available for appropriations	484.58	(319.45)
Less: Transfer to Special Reserve (Under section 29C of the NHB Act, 1987)	205.79	(211.27)
Less: Additional provision as per RBI Guidelines	121.44	0
Less: Proposed dividend tax	0	0
Balance carried forward to next year	157.35	(530.72)

During the year under review, Company has achieved AUM of Rs. 66,626.91 lakhs by the end of FY 2020-21 spread over 47 branches. The total revenue stands to Rs. 9,713.16 lakhs. Net Owned Fund (NOF) stood at Rs. 20,969.42 lakhs as on 31st March 2021.

Outlook for 2021-22

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform which will help in allowing all kinds of investors to invest in the Indian real estate market. It would create an opportunity worth Rs 1.25 trillion (US\$ 19.65 billion) in the Indian market over the years. Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalization, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family-owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralized processes to the source material and organize manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The growing flow of FDI into Indian real estate is encouraging increased transparency. Developers, to attract funding, have revamped their accounting and management systems to meet due diligence standards.

The Indian real estate market has always been chaotic, due to constant mismatch in demand and supply. However, one segment that has frequently acted as its saviour when the chips are down, has been affordable housing. The fundamental reason behind this is that it is not just real estate, but a need for the masses. In the next half-a-decade, it will see a small-scale turnaround driven largely by the affordable housing sector. Almost 95% of the country's population consists of the striving middle class, and the demand in this sector is still huge while supply is limited and there are only a handful of dedicated developers.

Developers in the premier and luxury housing segment have been used to high-profit margins, whereas the margin in the affordable segment is 10%-15% only. Therefore, just like rapid digitization changed the focus from per-unit margin to transacting in volumes, real estate also needs to move towards the volume first model by catering to the demand in affordable housing. One also needs to understand that a majority of buyers in this segment are end-users, therefore the chances of pricing fluctuations are much less as properties are not being bought for speculative purposes. On the other hand, affordable housing projects can also appeal to investors as projects under this segment invariably cost at least 25-30% less than other projects in the same vicinity but outside its ambit.

However, in the current pandemic situation ICRA Ratings expects the Covid-19 related slowdown in home loans extended by HFCs by 11%-13% in FY'2020. It expects the slowdown in home loan disbursements in the first half of FY'2021 as well. Recovery in the second half would be dependent on the overall economic turnaround.

People will likely defer their home purchases and home improvement/extension decisions in the current fiscal, till they can achieve stability in income levels and resumption of business activities.

Dividend

Directors do not recommend any dividend for the year under consideration.

3. Raising of Funds through Private Placement

During the year 2020-21 company has raised funds by way of private placement of rated, listed, secured, non-convertible debentures to be issued in dematerialized form ("**Debentures**") for cash with an issue size of Rs. 25 Crores with an option to retain oversubscription up to Rs. 75 Crores aggregating to Rs.100 Crores.

4. Reserves

During the year the company has made a profit of Rs. 10.29 Crores, Further, the company has transferred Rs. 2.06 Crores to Special Reserve as per section 29C of the NHB Act, 1987.

5. Acceptance of Deposits

The company being a non-deposit taking Housing Finance Company (HFC) has not accepted public deposit during the year.

6. Compliance with Directions/Guidelines of National Housing Bank (NHB)

The Company has in place a Policy in line with the requirements of the Sexual Harassment of women at workplace (Prevention, Prohibition and Redressal) Act, 2013. Internal Complaints Committee (ICC) has been set up to redress complaints, as and when received regarding Sexual Harassment and all employees are covered under this policy. The policy has been posted on the Company's website. During the year 2020-21, there were no compliant under POSH.

27. **Whistle Blower Policy**

The Company has adopted a whistle Blower policy and established the necessary vigil mechanism for Directors and employees to report genuine concerns about un-ethical behavior, pursuant to the provision of section 177(9) and (10) of the Companies Act,2013. The mechanism provides for adequate safeguards against victimisation of persons who use such mechanism and makes provision for direct access to the designated Member of the Audit Committee in appropriate or exceptional cases. It is hereby affirmed that no personnel of the Company have been denied access to the Audit Committee. There were no complaints from the employees during the year 2020-21.

The whistle Blower policy has been hosted on the Company's Website.

28. Significant Material Orders

During the year under review, no significant and material orders were passed by the regulator's courts or tribunals against the Company, impacting its going concern status or its future operations.

29. The Directors' Responsibility Statement

As required under clause (c) of sub-section (3) Section 134 of the Companies Act, 2013, the Board of Directors to the best of their knowledge and ability, confirm that: -

- a. in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures.
- b. they have selected such accounting policies and applied them consistently and made Judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit and loss of the company for that period;
- c. they have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities.
- d. they have prepared the annual accounts on a going concern basis.
- e. they have laid down internal financial controls to be followed by the Company and such internal financial controls are adequate and operating effectively
- f. they have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

30. Disclosure of contingent liabilities: -

The Company does not recognize a contingent liability but discloses its existence in the financial statements.

31. Applicability of CSR provision under Sec 135

The provisions of sec 135 of the Companies Act 2013 pertaining to the Corporate Social Responsibility is applicable to the Company during the Financial Year 2020-21. Details of the disclosures as per CSR rules are given in **Annexure VIII**

32. Management Discussion and Analysis Report

The Management Discussion and Analysis Report forms part of the Board's Report. **(Annexure-IV)**

33. Secretarial Auditors

In terms of Section 204 of the Companies Act, 2013 and the Rules there under, the Company has appointed M/s KSR & Co, Practicing Company Secretary firm, for conducting Secretarial Audit of the Company for the Financial Year 2020-21. The Secretarial Audit Report for the Year, in Form MR-3 as prescribed under the Companies Act, 2013 is annexed to this Board's Report **(Annexure V)**.

There is no qualification, observation or remark in the Secretarial Audit Report requiring explanation by the Board of Directors.

34. Details of adequacy of Internal Financial Controls and Internal Audit

Your Company has put in place, well defined and adequate Internal Control System and Internal Financial Control (IFC) mechanism commensurate with size, scale and complexity of its operations to ensure control of entire business and assets. The functioning of controls is regularly monitored to ensure their efficiency in mitigating risks. A comprehensive internal audit department functions in house to continuously audit and report gaps if any, in the diverse business verticals and statutory compliances applicable.

During the year, Internal Financial Controls were reviewed periodically by the management and Audit Committee. Key areas were subject to various statutory and internal audits in order to review the adequacy and strength of IFC followed by the Company. As per the assessment, Controls are strong and there are no major concerns. The internal financial controls are adequate and operating effectively so as to ensure orderly and efficient conduct of business operations.

Your Company has an independent inhouse internal audit function which carries out regular internal audits to test the design, operations, adequacy and effectiveness of its internal control processes and also to suggest improvements to the management. Additionally, KPMG was appointed in terms of Section 138 of Companies Act, 2013, to conduct internal audit of functions. Their observations along with management response are periodically reviewed by Audit Committee and Board and necessary actions are taken.

35. Material Event Subsequent to the Date of Financial Statement

There have been no material changes and commitments, affecting the financial position of the Company which occurred between the end of the FY 2020-21 and the date of this report.

36. Maintenance of Cost Records

The Company is an NBFC, and hence the requirement under sub-section (1) of section 148 of the Companies Act, 2013 w.r.t Maintenance of cost records is not applicable.

37. **Particulars of employees and related disclosure**

Particulars of employees and related disclosures are annexed herewith as **Annexure VII** as per Section 197 of the Act.

38. **Significant & material orders passed by the regulators**

There were no such significant / material orders passed by the Regulators during the financial year 2020-21.

39. **PENALTIES / PUNISHMENT/ COMPOUNDING OF OFFENCES**

During the year National Housing Bank vide its letter dated 25th February, 2021 has levied a penalty of Rs.3,95,000 (at the rate of Rs.5,000/- per account) plus GST for inadequate assignment of risk weight in 79 NPA loan accounts which is a violation of Para 30 of the HFC (NHB) Directions, 2010 and we have paid the payment on 1st March 2021.

40. **Acknowledgement**

Your Directors acknowledge and place on record its sincere appreciation and gratitude to the employees of the company at all levels for their dedicated service and commitments, to the National Housing Bank, Governments and its statutory agencies for the support, guidance and co-operation, to the Investors, shareholders, Bankers and other financial institutions and customers for the whole hearted support and confidence reposed on the company and the management and to the general public at large for their blessings and good wishes the company has been receiving in good measure over the years.

Annexure-I

Policy on Independent Directors & Compensation

(As approved by the Board on 13th May 2015)

As per section 178 of the Companies Act 2013, Nomination and Remuneration Committee shall formulate a policy on the criteria for determining the qualifications, positive attributes and Independence of a director and recommend to the Board a policy on the remuneration for the directors, KMPs and other employees.

In line with the above statutory requirement under sections 149 and 178 of the Companies Act, 2013 the following policies are proposed to be adopted for the appointment of directors and the matters connected therewith.

Definitions

Unless the context otherwise requires, the following words and expressions shall have the meaning provided herein: -

- i. **Act** - means the Companies Act, 2013 including any amendments and reenactments as the case may be from time to time
- ii. **Board**- means the collective body of directors of the Company
- iii. **Director**- means a director appointed on the board of the company
- iv. **Independent director** means an independent director referred to in sub-section (5) of section 149 of the Companies Act, 2013
- v. **Nomination Committee**- means the Nomination Compensation and Corporate Governance Committee of the Board.
- vi. **Committee**- means the committees of directors constituted by the Board

(I) Appointment

The company shall maintain the strength of independent directors on its board keeping in mind the regulatory requirements issued from time to time and as per the present norms, Company shall have at least Two directors as Independent Directors.

On selection of an independent director, the Chairman of the Board shall issue a letter of appointment to the director.

The independent directors appointed in the company will have a tenure of 5 years. They can be re-appointed for another term of 5 years in compliance with the applicable provisions of the Companies Act.

Any intermittent vacancy caused of an independent director shall be filled up by the Board within a period of 3months or at the next board meeting whichever is earlier.

(II) Criteria for Determining Qualifications, Positive Attributes & Independence of Director:

1. Qualifications of Independent Director:

An Independent director shall possess appropriate skills, experience and knowledge in one or more fields of finance, law, management, sales, marketing, administration, research, corporate governance, Technical operations or other disciplines related to the company's business.

2. Positive attributes of Independent Directors:

An independent director shall be a person of integrity, who possesses relevant expertise and experience and who shall uphold ethical standards of integrity and probity; act objectively and constructively; exercise his responsibilities in a bona-fide manner in the interest of the company; devote sufficient time and attention to his professional obligations for informed and balanced decision making; and assist the company in implementing the best corporate governance practices.

3. Independence of Independent Directors:

While considering the appointment of an independent director, the nomination committee and the board shall ensure that the incumbent satisfies the test of independence as provided under the Companies Act, 2013 as below: -

- i) Apart from receiving director's remuneration, do not have any material pecuniary relationships or transactions with the company, its promoters, its directors, its senior management or its holding company, subsidiaries, and associates.
- II) Do not have any relation with the promoters or persons occupying management positions at the board level or at one level below the board.
- III) not an executive of the company in the immediately preceding three financial years.
- IV) not a partner or an executive or was not partner or an executive during the preceding three years, of the Statutory Audit Firm(s), Internal Audit Firm(s), Legal Firm(s) and Consulting Firm(s) that have a material association with the Company;
- V) not a material supplier, service provider or customer or a lesser or lessee of the company.
- VI) not a substantial shareholder of the company i.e. owning two percent or more of the block of voting shares.

The board shall on a continuous basis ensure that the independent directors continue to maintain their independence during their tenure on the board. To ensure the same, the

board may obtain proper declarations from the directors at the time of appointment, annually and at such intervals as the board may deem fit.

(III) Performance Evaluation

The nomination committee and the board shall put in place a mechanism for the review of performance of the Board, Committees and individual directors. The review of Performance shall be undertaken annually preferably before the next Annual General Meeting and a statement indicating the manner in which formal annual evaluation has been made by the Board of its own performance and that of committees and individual directors shall be annexed to the Directors Report.

(IV) Remuneration Policy for Directors, Key Managerial Personnel and other employees

A. Remuneration to NON-EXECUTIVE DIRECTORS (NEDs)

The NEDs including Independent Directors shall be entitled for sitting fees for attending board/committee meetings at such rate as may be approved by the board from time to time. Present sitting fee for Board, Audit, Risk & Nomination Committee Meeting is Rs. 40,000/- for Management committee meeting Rs. 20,000/-, IT strategy -Rs 15000/- and stakeholder committee Rs 10,000/-

In addition to the sitting fees, the company will bear or reimburse the normal travelling, boarding and lodging expenses of directors incurred for the purpose of attending board/committee meetings or for attending any other duties on behalf of the company.

On the recommendation of the Nomination Committee and subject to the Compliance of the provisions of the Companies Act 2013, the board may fix the commission to NEDs for the year or any part thereof, up to an aggregate amount not exceeding 3% of the net profits of the company subject to the availability of profits.

Additional commission, apart from commission referred to above, may be paid to nonexecutive directors as may be decided by the board of directors of the company from time to time, depending on the extra time and effort as may be devoted and contribution as may be made by the non-executive directors.

The company has no stock options plans and no payment by way of bonus, pension, incentives etc. shall be paid.

B. REMUNERATION TO KEY MANAGERIAL PERSONNEL & OTHER EMPLOYEES

The objective of the policy is directed towards having a compensation philosophy and structure that will reward and retain the talented work force, with a long-term perspective.

Remuneration to Key Managerial Personnel will involve a balance between fixed salary at par with the Industrial Standards in general and a performance linked incentive/ bonus pay which

will ensure and support a high-performance culture. The Remuneration to other employees will be such as to ensure that the relationship of remuneration to performance is clear and meets appropriate performance benchmarks.

The above criteria and policy are subject to review by the Nomination & Remuneration committee & the Board of Directors of the Company.

(V) Applicability of Law

Change in the underlying Act / Regulations or guidelines may supersede the provisions of this policy. At any time if there is any amendment to the applicable laws or regulations or guidelines affecting the provisions of this policy, the policy shall be deemed as amended to the extent applicable and the amended provisions will take effect from the date of Change in the underlying laws/ regulations or guidelines.

VI) Amendment to the policy.

The provisions of this policy may be amended by the Board at any time on the recommendation of the Nomination Committee.

Annexure-II

Annexure III

POLICY ON MATERIALITY OF RELATED PARTY AND MANNER OF DEALING WITH RELATED PARTY TRANSACTIONS.

Objective

Manappuram Home Finance Ltd (MAHOFIN or Company) is governed, amongst others, by the rules and regulations framed by the National Housing Bank. NHB has mandated every HFC with asset size of 50 cr and above to frame & disclose the policy on dealing with Related Party Transactions and also the materiality of Related Party Transactions on its website and also in the Annual Report vide their Notification No. NHB.HFC.CG-DIR.1/MD&CEO/2016 .

Accordingly the Company has formulated this policy on Materiality of Related Party Transactions and to dealing with Related Party Transactions (Policy). This Policy regulates all transactions between the Company and its related parties .

1. Title and commencement:-

This policy will be known as the Related party Policy of Manappuram Home Finance Ltd. and will be effective from the date as may be specified by the Board.

2. Important definitions

‘Audit Committee’ or the ‘Committee’ means the committee of the Board of Directors of the company constituted under the Companies Act 2013 or its earlier enactment .

Board means Board of Directors of the Company.

Key managerial personnel means;

- i. Managing Director & Chief Executive Officer, Executive Directors and Directors in the whole time employment of the company
- ii. Chief Financial Officer
- iii. Company Secretary.
- iv. And any other person as may be prescribed by the Central Government and to be applicable to the company.

Material related Party transactions means;

A transaction with a related party shall be considered material if the transaction / transactions to be entered into individually or taken together with previous transactions during a financial year, exceeds ten percent of the annual consolidated turnover of the company as per the last audited financial statements of the company.

Related party;-

Related party, with reference to a company, means-

- i) A director or his relative;
- ii) A key managerial personnel or his relative;
- iii) A firm in which a director, manager or his relative is a partner;
- iv) A private company in which a director or manager is a member or director ;
- v) A public company in which a director or manager is a director or holds along with his relatives, more than two percent of its paid up share capital
- vi) Any body corporate whose Board of Directors, managing director or manager is accustomed to act in accordance with the advice, directions or instruction of a director or manager;
- vii) Any person on whose advice, direction or instructions a director or manager is accustomed to act

Provided that nothing in sub clauses (vi) and (vii) shall apply to the advice, directions or instructions give in a professional capacity;

viii) Any company which is

- A) A holding , subsidiary or an associate company of such company
- B) A subsidiary of a holding company to which it is also a subsidiary

ix) And such other entity which is a related party as provided under the applicable accounting standards

“Relative” means relative as defined under sub-section (77) of section 2 of the Companies Act, 2013 and rules prescribed there under.

Related party transactions means;

A related party transaction is a transfer of resources, services or obligations between a company and a related party, regardless of whether a price is charged.

3. Policy

All Related Party Transactions must be reported to the Audit Committee and referred for review and recommendation by the Committee, to the Board for its approval in accordance with this Policy.

4. Identification of Potential Related Party Transactions

Each director and Key Managerial Personnel is responsible for providing notice to the Board or Audit Committee of any potential Related Party Transaction involving him or her or his or her Relative, including any additional information about the transaction that the Board/Audit Committee may reasonably request. Board/Audit Committee will determine whether the transaction does, in fact, constitute a Related Party Transaction requiring compliance with this policy.

The Company strongly prefers to receive such notice of any potential Related Party Transaction well in advance so that the Audit Committee/Board has adequate time to obtain and review information about the proposed transaction.

5. Manner of dealing with related party transactions.

- i. Company will entertain only such transactions which are in the interest or beneficial to the company and are at arm's length.
- ii. All the related party transactions other than the remuneration/ compensation to any director or key managerial personnel in connection with the discharge of his or her duties in the company, its holding, subsidiary or associate company including the reimbursement of reasonable expense towards travel, boarding and lodging, other perquisites or benefits as per the terms of employment or contract of service or as per the tradition or practice or pursuant to any provision of any statute and shall require the prior approval of the board after the review and recommendation by the audit committee.
- iii. The approval of the Board for a transaction shall be by means of a resolution passed at its meeting.

6. Manner of dealing with material related party transactions

- i. Company may enter into any material related party transactions as defined in this policy only with the prior approval of the shareholders by way of a resolution passed either at a meeting of the shareholders or by way of a postal ballot in accordance with the applicable provisions of the Companies Act and the Rules made there under
- ii. Any proposal for a material related party transaction shall be reviewed by the audit committee and recommend to the board before putting it up to the shareholders for approval.
- iii. The related party shall not cast votes on the resolution in which he is interested.

7. Independent directors and related party transactions.

A person shall not be considered for the purpose of appointment or continuing as an independent director of the company if he has or had material pecuniary relationship with the company, its holding, subsidiary or associate company, or their promoters, or directors during the two immediately preceding financial years or during the current financial year apart from receiving directors remuneration.

8. Non material transactions and pecuniary relationships

- i. For the purpose of this policy, directors, including independent directors and key Managerial personnel may enter into transactions with the company in the ordinary course of its business at arm's length prices where such transactions do not involve a consideration or commercial value exceeding Rs.10. million in the aggregate during a financial year. However, they shall not enter into any negotiated transactions, contracts or other arrangements with the company without complying with the other provisions of this policy.
- ii. Any transaction in which the Related Party's interest arises solely from ownership of securities, if any, issued by the Company and all holders of such securities receives the same benefits pro rata as the Related Party.

9. Parent & Associate companies

- i. All related party transactions with the Parent company & its associates require the prior approval of the audit committee and the board.
- ii. The company may enter into a transaction with its Parent company & its associates if they are urgent in nature and have to be undertaken in between two scheduled board /audit committee meetings and in such case the same shall be approved by resolution by circulation and the same shall be taken note of at the next board / committee meetings with all relevant particulars.

10. Review and Approval of Related Party Transactions

While considering any related party transaction, the Committee shall take into account all relevant facts and circumstances including the terms of the transaction, the business purpose of the transaction, the benefits to the Company and to the Related Party, and any other relevant matters. Any member of the Committee who has a potential interest in any Related Party Transaction will refuse himself or herself and abstain from the discussion and voting on the approval of the himself or herself and abstain from discussion and voting on the approval of the Related Party Transaction.

The Committee shall be provided with all relevant material information of the Related Party Transaction, including the terms of the transaction, the business purpose of the transaction, the benefits to the Company and to the Related Party, and any other relevant matters. In addition while reviewing the transactions, the committee shall be entitled to call for additional information or opinions of expertise at the cost of the company and also to demand for the attendance of any officer or other employee of the company.

Prior to the approval, the Committee may, inter-alia, consider the following factors to the extent relevant to the transaction:

- Whether the terms of the Related Party Transaction are fair and on arm's length basis to the Company and in the ordinary course of business

- Whether the Related Party Transaction would affect the independence of an independent director;
- Whether the proposed transaction includes any potential reputational risk issues that may arise as a result of or in connection with the proposed transaction;
- While considering the arm's length nature of the transaction, the Committee may take into account the facts and circumstances as were applicable at the time of entering into the transaction with the Related Party. The Committee may also take into consideration subsequent events (i.e., events after the initial transactions have commenced) like evolving business strategies / short term commercial decisions to improve / sustain market share, changing market dynamics, local competitive scenario, economic / regulatory conditions affecting the global / domestic industry, may impact profitability but may not have a bearing on the otherwise arm's length nature of the transaction.
- Whether the Related Party Transaction would affect the independence or present a conflict of interest for any Director or Key Managerial Personnel of the Company, taking into account the size of the transaction, the overall financial interest or benefit to the Director, Key Managerial Personnel or other Related Party concerned, the direct or indirect nature of the Director's interest, Key Managerial Personnel's or other Related Party's interest in the transaction and the ongoing nature of any proposed relationship and any other factors the Committee deems relevant.

In the case of frequent / regular / repetitive transactions which are in the normal course of business of the Company, the Audit Committee may grant omnibus approval. For granting omnibus approval, the committee shall specify the following details:

- a. Name of the related party;
- b. Nature of the transaction;
- c. Period of the transaction;
- d. Maximum amount of the transactions that can be entered into;
- e. Indicative base price / current contracted price and formula for variation in price, if any;
- f. Justification for the omnibus approval.

Such transactions will be deemed to be pre-approved and may not require any further approval of the Audit Committee for each specific transaction for the specific period approved.

The omnibus approval shall be valid for a period of one financial year and fresh approval shall be obtained after the expiry of one year.

11. Manner of dealing with escaped transactions.

Where the company becomes aware of a Related Party Transaction with a Related Party that has not been approved under this Policy prior to its consummation, the matter shall be reviewed by the Committee. The Committee shall consider all of the relevant facts and circumstances regarding the Related Party Transaction, and shall evaluate all options available to the Company, including ratification, revision or termination of the Related Party Transaction.

The Committee shall also examine the facts and circumstances pertaining to the failure of

reporting such Related Party Transaction to the Committee under this Policy and shall take any such action it deems appropriate or submit their recommendation to the Board.

12. Disclosure and Recording Of Related Party Transactions:

- a. Company shall disclose each year in the Audited Financial Statements transactions with Related Parties as prescribed in the applicable Accounting Standard as well as accounting policies governing transactions with Related Parties.
- b. Disclosure in the Board's Report to the shareholders shall be made as prescribed under Companies Act, 2013.
- c. The Company Secretary shall make necessary entries in the Register of Contracts required to be maintained under the Companies Act, 2013.

13. Amendment to the policy

The policy may be updated or modified in accordance with the changes to the threshold limits or as may be required by the amendments to the applicable laws and regulations with the approval of Board of directors .

14. Communication of the policy

This Policy will be published on the website of the company and a link will be provided in the annual report of the company the publication on the web site will constitute a notice to all to whom it is applicable.

15. Effective date and applicability

The policy shall be effective from the date of approval of the policy by the Board .

Annexure IV

Manappuram Home Finance Limited

Management Discussion and Analysis Report

I. Industry Structure and Developments

a). Macro-economic environment

The emergence of nuclear families, rapid urbanization and a secular trend of rising household income are likely to remain the key drivers for growth in all spheres of real estate, including residential, commercial, and retail. Rapid urbanization in the country is pushing the growth of real estate.

In the last 10 years, 2011 - 2020, Mumbai took the largest quantum of office investment worth US\$5 billion followed by the National Capital Region (NCR) with US\$2.8 billion and Hyderabad with US\$2 billion.

The real estate sector comprises four sub-sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect, and induced effects in all sectors of the economy.

In 2020, the Indian real estate sector attracted US\$ 5 billion investments, about 93 per cent of volume witnessed in the previous year, despite a sudden halt brought on by the pandemic. The sector had attracted around Rs 43,780 crore (US\$ 6.26 billion) of investments in 2019. The retail segment in Indian realty attracted private equity investments of around US\$ 1 billion in 2019 and around US\$ 14 billion of foreign private equity (PE) between 2015 and 2019. The realty sector attracted PE investment worth US\$2.3 billion during January-September 2020 period. Of the total investments, the office segment attracted the largest share of \$1.9 billion, claiming 81 per cent share, followed by warehousing at 10 per cent and residential with 9 per cent. The PE investments in office segments were down 31 per cent year-on-year in H1-FY2020 compared to \$2.7 billion during the same period last year. India witnessed the first REIT issue in 2019 by the global investment firm Blackstone and realty firm Embassy group, which raised Rs 4,750 crore (US\$ 679.64 million).

The real estate sector contributes seven per cent to the country's GDP and its share is expected to double by 2040. The current size of the real estate market is about USD 120 billion dollar and likely to grow to USD 650 billion by 2040. The industry currently employs 55 million people and it may rise to 66 million. This sector lies at the heart of the economy, as it has backward linkages with 200 other industries.

a. Covid Impact and Government Action to support the housing finance sector:

- The calendar year 2020 started on a positive note with the real estate sector hoping to improve upon the mixed performance of the year 2019. The Union Budget in February 2020, neglected the real estate sector, barring some good tidings for the affordable segment. The

sector took respite in the government's focus on infrastructure, which would mean opening up peripheral areas and creating new avenues of growth. Then came the global pandemic, national lockdown and a large scale reverse migration. However, during the lockdown, the sector took measures to minimize the impact, and also made its voice heard by the Government of India.

- Realizing the gravity of the situation, the Government of India came out with a slew of measures and announcements over the next six months helping the real estate sector stay firmly on the ground. The government granted an extension to complete projects, funds to ensure liquidity, steps to help stuck projects, rationalized risk-weightage norms, announced the restructuring of loans based on the projects, and linking home loans to LTV.
- Reeling under liquidity crunch and lack of activity in initial lockdown months, the sector utilized digital platforms for engaging with the customers. The impact was immediate as buyers, who were sitting at homes and had ample time at hand, realized the importance of owning a home. The digital outreach programmes resulted in increased inquiries, and quite a few developers of repute booked units using online channels. The year saw rainfall when it comes to using digital, innovative schemes, and lucrative offers.
- The affordable housing segment, on the other hand, survived the onslaught merely because it caters to the price bracket that has maximum demand. Several factors worked in favour of affordable housing, including a Rs 3.74 trillion liquidity infusion announced by RBI, the CLSS extension, relief under EPF, etc. The biggest takeaway for the buyers, however, was the unprecedented cut in the repo rates, which resulted in home loan interests coming down to sub-7%. The tragedy also came as a blessing in disguise for the sector, especially the affordable housing segment, as the middle class was facing challenges in staying at rented accommodations.
- The RBI has stipulated a liquidity buffer in terms of LCR (liquidity coverage ratio), which will promote the resilience of HFCs to potential liquidity disruptions. All non-deposit taking HFCs with an asset size of Rs 10,000 crore and above, and all deposit-taking HFCs irrespective of their asset size need to have 50 per cent LCR by end of 2021, 60 per cent by end of 2022, 70 per cent by 2023, 85 per cent by 2024 and 100 per cent LCR by December 1, 2025. Every HFC will have to maintain a minimum capital ratio on an ongoing basis consisting of Tier-I and Tier-II capital which shall not be less than 13 per cent as of March 31, 2020, 14 per cent on or before March 31, 2021, and 15 per cent on or before March 31, 2022, the RBI said. The Tier-I capital, at any point of time, shall not be less than 10 per cent. The total of Tier-II capital, at any point of time, shall not exceed 100 per cent of Tier-I capital, the RBI said.
- The sector made a comeback in Q3 with sales and new launches rebounding to almost 70% of the pre-COVID-19 levels. Maximum sales were seen in the Mumbai Metropolitan Region (MMR), National Capital Region (NCR), and Pune; all three regions accounted for almost 80 per cent of the sales in the July-Sept quarter. The reduction of stamp duty charges in Maharashtra followed by Karnataka coupled with developers' incentives and all-time low home loan interest rates became the catalyst of recovery for the real estate sector. Though

the new supply in NCR was not much, it still contributed almost 15% of the overall launches that happened this year. The affordable housing segment comprised almost 70% of the total new supply in the July-Sept period in major cities.

- The market is promising, and with the apex bank being optimistic about the economic growth, the real estate sector would see a marked change in 2021. The measures taken by the RBI would help the sector reap rich dividends as the sector is riding high on the increased demand in the post-COVID-19 situation. The market for affordable housing is robust, and in the coming months, there will be more movement. People have realized the importance of owning a home, and this feeling is going to persist.

II. Going Forward - Scenario and prospects for growth in housing segment

- The Covid-19 pandemic-induced disruptions aggravated the slowdown in the housing credit growth in H1 FY2021. However, with the gradual easing of lockdown restrictions and increasing economic activity, the disbursements have picked up considerably in the last few months. Consequently, ICRA expects the overall housing credit growth for FY2021 to be around 6-8%, though the same would be significantly lower than the last three years compound annual growth rate (CAGR) of 14%.
- With demand for housing loans picking up during the last two quarters of fiscal 2020-21, housing finance companies (HFCs) are likely to witness a growth rate of 6-8 per cent during the year and 8-10 per cent in FY2021-22, says a report. The on-book portfolio growth moderated for HFCs in the first nine months of FY2021 (compared to March 2020) to 4.3 per cent (excluding the portfolio of one large player, which had sizeable write-offs) from portfolio growth of 6 per cent (Y-o-Y) in FY2020.
- ICRA Ratings in a report said with a revival in demand for housing credit in the industry in the last two quarters, most of the HFCs have already reached near pre-Covid level disbursements and are targeting to achieve further higher disbursements in Q4 FY2021.
- According to ICRA's vice president and sector head Sachin Sachdeva, given the cash flow stress faced by the borrowers, the overdue of HFCs have increased in the first nine months of FY2021 as reflected by proforma GNPA of around 2.7 per cent as of December 31, 2020, as compared to reported GNPA of 2.4 per cent as on March 31, 2020. The asset quality indicators could be further impacted in Q4 FY2021, he said. He sees GNPA of HFCs for FY2021 to be higher by 50-100 basis points compared to FY2020, and the same will remain to elevate in FY2022 as well.
- Notwithstanding the improvement in business in the last two quarters of FY2021, relatively lower business growth than the earlier years and asset quality pressures would moderate the profitability for the HFCs in FY2021. However, healthy provision cover maintained by most of the entities is expected to provide cushion and protect the profitability from Covid related asset quality stress in FY2022
- According to ICRA ratings, HFCs are expected to regain their profitability and growth trajectory in FY2022, the rising Covid-19 infections and localized lockdowns remain a concern area. HFC's ability to maintain the growth momentum and keep slippages under control would be critical for maintaining the credit profile. Further, the report said HFCs have been maintaining healthy on-balance sheet liquidity for the last few quarters and have gradually reduced their reliance on short-term funding sources like CP (commercial papers), which has helped improve asset-

liability mismatches in the near-term buckets. The rating agency expects HFCs to maintain healthy liquidity in the near term given the challenging environment.

- The Covid-19-induced loss of income is likely to have impacted the asset quality of HFCs across the retail and wholesale segments. Within the housing, the asset quality in the affordable and self - employed segment could worsen more vis-à-vis the salaried segment, which is expected to exhibit more resilience. However, salary cuts/job losses in certain sectors could lead to some weakening in the debt repayment capability of the borrowers. The construction finance segment, which was already under pressure due to demand-side issues, was further impacted by labour migration and lockdowns, which will delay project execution, completion and sales, and thus impact the cash flow of this borrower segment.
- Though the industry has an avenue for restructuring the portfolio as a part of the relief measures announced by the Reserve Bank of India (RBI), the same is expected to have been used more for construction finance loans than for retail housing loans. Moreover, NBFCs - HFCs have the option of restructuring the portfolio under the deferment of the commencement of commercial operations (DCCO) framework. This, in turn, could lead to lower reported gross stage 3 assets for HFCs by the end of FY2021.
- ICRA expects the reported GNPA's in the housing segment to increase to 1.5- 1.8% (slightly lower than ICRA's earlier estimates) in FY2021 from 1.3% as of March 2020 while slippages in the non-housing segment could be higher, leading to overall GNPA's of 2.9-3.4% in FY2021. Although the lifetime losses on secured retail loans such as home loans and loan against property (LAP) are expected to be low, given the underlying collateral and moderate loan-to-value (LTV), a significant downward movement in property prices could lead to reduced collateral covers and hence higher risks for these lenders.
- On the liability side, the share of commercial paper (CP) borrowings reduced to 1% of the overall borrowings of HFCs as of September 30, 2020 (4% as of March 31, 2020, and 7% as of March 31, 2019). This was on account of entities trying to increase the share of long - term borrowings from banks and fixed deposits. As per ICRA's estimates, while portfolio growth for HFCs is expected to be muted, they would require Rs. 3.5- 4.0 lakh crore to meet refinancing requirements and achieve portfolio growth of up to 8% in FY2021.
- In H1 FY2021, HFCs reported some compression in their operating profitability on account of lower non-interest income as disbursements were impacted. Concerning credit costs, some entities made lower provisions in H1 FY2021 as they had already created higher provisions in Q4 FY2020 owing to the expected stress on account of Covid-19. This was also driven by the better than expected collection efficiency in H1 FY2021. Consequently, HFCs were able to maintain the return on assets (RoA) in H1 FY2021 at the FY2020 level, also supported by lower interest costs on reduced leverage. However, the return on equity (RoE) was impacted and declined to 13.5% in H1 FY2021 from 15.2% in FY2020.
- Going forward, the net interest margins (NIMs) of the HFCs are expected to remain stable as the cost of funds could moderate. However, a slowdown in growth is likely to impact the operating expense ratios while the credit costs could remain elevated. ICRA expects the RoA to remain range-bound between 1.0% and 1.2% in FY2021 with the credit costs expected to be 0.8-1.0% in FY2021 compared to 1.1% last year.

a. Demand for Affordable Housing Finance

Within the attractive real estate sector of India, affordable housing appears as a particularly bright opportunity. The potential of affordable housing is bolstered, to a great extent, by the very nature of its business model, which is in sync with India's shifting socioeconomic landscape--the rise of the middle class. Moreover, due to its wider target market, affordable housing is less susceptible to the vagaries of the macroeconomic environment.

In the sections that follow, the report first defines the scope of affordable housing in the Indian context, then goes on to trace its emergence in the wake of the global economic downturn, before identifying the enormous potential this segment holds in India's robust growth story, and the ways to capitalize on that potential.

The present status of infrastructure in urban India leaves much to be desired. Availability of housing, in particular, is a key stress point--about 80 million households in India are estimated to be living in slums, for want of affordable housing. As the Indian middle class expands, the demand for affordable housing is likely to increase even further.

Consequently, the potential market size for affordable housing in urban India is forecasted to grow about 1.5 times from an estimated 25 million households in 2010 to 38 million in 2030. Maximum potential is believed to be in the rich Tier 1 cities that have a considerable mass of urban poor, the middle class in Tier 2 and Tier 2 cities and lower-income Tier 4 cities.

Key factors bolstering growth in demand for affordable housing include:

- **Rapid urbanisation:** India's urban population is forecasted to grow to 590 million by 2030, at a compounded annual growth rate (CAGR) of 2.4% between 2010 and 2030. The percentage of the urban-to-total population is forecasted to increase from 30% in 2010 to 40% by 2030.
- **Rising demand for affordable homes:** With home prices far outpacing general inflation and wage growth, premium homes in Tier 1 cities have become largely unaffordable, increasing demand for affordable homes in Tier 2 and Tier 3 cities extending up to Tier 4 cities in the coming years
- **A culture of homeownership:** The local Indian culture inclines homeownership. Even people in lower-income groups are determined to purchase a home, rather than rent one.
- **The focus of Government:** The current Government has a well-defined mission of Housing for all by the year 2022 which will provide a positive environment for the affordable housing segment with various subsidies schemes for customer and the development of affordable housing colony under Pradhan Mantri Awas yojana and development authority of various states.

The government of India has provided fiscal benefits on housing loans and a CLSS or a subsidy scheme is also available for home buyers. Also, the Govt. of India, through National Housing Bank is offering to refinance at a lower rate to lend further to individual housing in the affordable sector.

According to the McKinsey Report (2010), India will have 40 per cent of its population living in urban areas with 68 cities with one million-plus population (from 42 currently) by 2030. It

estimates that the demand for affordable housing will increase to 38 million housing units in 2030 from 19 million in 2012.

b. Government measures to encourage Affordable Housing

The Government of India along with the governments of the respective states has taken several initiatives to encourage development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for real estate companies. Below are some of the other major Government Initiatives:

- Under the Pradhan Mantri Awas Yojana (PMAY) Urban, more than 6.85 million houses have been sanctioned up to December 2018.
- In February 2018, the creation of the National Urban Housing Fund has approved with an outlay of Rs 60,000 crore (US\$ 9.27 billion).
- Under the Pradhan Mantri Awas Yojana (PMAY) Urban 1,427,486 houses have been sanctioned in 2017-18. In March 2018, the construction of additional 3,21,567 affordable houses was sanctioned under the scheme.

The government has been tweaking policies and regulations, especially for the last two years, to pique the interest of developers and home buyers in 'Affordable Housing' with a larger goal of achieving the set targets under the PMAY-U. The accordance of the "Infrastructure status" in budget 2017 was a big step in this direction, apart from initiatives such as the tax sops and incentives under the credit-linked subsidy scheme (CLSS), the tax exemption in profits from such projects, goods and services tax (GST) implementation, and enactment of the real estate regulatory authority (RERA) Act. In 2018 too, several more policy measures were announced, which further widened the scope of affordable housing in urban areas.

Several measures to boost affordable housing, which includes: (i) granting infrastructure status to affordable housing; (ii) increasing the time for project completion to affordable housing promoters from earlier three years to five years; (iii) providing a year to developers to pay tax on notional rental income on completed but unsold units; (iv) reducing the tenure for long-term capital gains for affordable housing from three to two years; (v) revision of the qualifying criteria for affordable housing from saleable area to the carpet area; (vi) announcement of a new CLSS for the MIG with a provision of Rs 1,000 crores; and (vii) refinancing facility by National Housing Bank (NHB) for individual loans for the affordable housing segment. Apart from the Centre, some State Governments, viz., Madhya Pradesh, Chhattisgarh and Gujarat are also encouraging affordable housing by providing rebates on stamp duty rates levied on housing for the EWS, low and middle-income groups.

In the wake of the COVID-19 pandemic, the Reserve Bank of India has provided a Special Liquidity Facility (SLF) of Rs.10,000 crore to National Housing Bank (NHB) to enable it to infuse liquidity into the housing sector through Housing Finance companies (HFCs) as also other PLIs at more affordable rates and to meet the credit needs of the sector.

Accordingly, National Housing Bank has launched Special Refinance Facility (SRF) scheme. The objective of the scheme is to provide short term refinance support to HFCs and other eligible PLIs which will partially mitigate their liquidity risk and improve the much-needed liquidity into the overall housing finance system. The total amount allocated under this scheme shall be Rs. 10,000 crore.

Opportunities & Threats

I. Strength: Strong Capitalization, Parent Company Brand & Network, experienced professionals, Digitalization, constructing good financials of the Company and the Government Initiative. The special refinance scheme (SRF) rolled by the regulator for short term loans to mitigate the liquidity risk.

II. Weakness: Long term fund, Narrow profit margin, hiring the best talent, High Operating Cost, High Rate of Interest on borrowed funds

III. Opportunities: Increasing urbanization, rising affordability, increased penetration in housing, Government initiatives and subsidies to customers

IV. Threats: Pandemic COVID-19 impact and lockdown is drastically impacted on the real estate sector. The transactions are not being undertaken or executed. Due to this slowdown in the economic scenario and resultant income contraction, increase in construction cost, High Land Value, High competition & new entrants, High Registration Fees & Stamp Duty, Maintaining desired asset quality, Real Estate Regulation Act & GST impact, Early transfer of the loan with another lender for lower interest rate.

Recent regulatory measures:

Pradhan Mantri Awas Yojana (PMAY): A Credit Linked Subsidy Scheme (CLSS) has been implemented for the last 2 years by the Company as introduced by the Government of India with effect from 17th June 2015. The intention to ensure that the benefits of the schemes reach a vast segment of the population especially those coming from downtrodden society.

The Company has enrolled under the scheme of Pradhan Mantri Awas Yojana, (U) Credit Linked Subsidy Scheme for LIG/EWS, Middle Income Group I & II. The Company, in the financial year 2019-20, has enrolled under the scheme of Rural Housing Interest Subsidy Scheme to extend its benefit to the customer to whom loans are extended so far. As of March 2021, the company has extended the benefit of a subsidy of Rs. 5.91 Cr. to its customers.

Apart from the above, the RBI has also taken various policy measures to promote affordable housing. First, in July 2014, the RBI defined affordable housing loans as eligible under priority sector lending, as also housing loans to individuals up to Rs 50 lakhs for houses of values up to Rs 65 lakhs located in the six metropolitan centres (Mumbai, New Delhi, Chennai, Kolkata, Bengaluru and Hyderabad) and Rs 40 lakhs for houses of values up to Rs 50 lakhs in other centres for purchase/construction of dwelling unit per family. Second, it allowed banks to issue long term bonds (of minimum 7 years maturity) to finance loans to affordable housing and exempt such bonds from the computation of adjusted net bank credit (ANBC). Third, the RBI allowed the banks to provide home loans up to 90 per cent for properties that cost up to `30 lakh in October 2015 -17. Fourth, the RBI also modified the provisioning or risk-weight norms for home loans to make them cheaper – it cut the standard asset provisioning on housing loans to 0.25 per cent from 0.4 per cent on June 7, 2017. In its Monetary Policy Statement of October 2017, the RBI has indicated that faster rollout of affordable housing program with time-bound single window clearances and rationalisation of high stamp duties by the state governments can support growth.

Segment-wise or Product-wise performance

Affordable Housing Finance Company (A-HFC) Industry Overview

Amid conditions of business de-growth for the housing finance companies (HFC)s, the affordable housing finance companies (AHFC)s have been continued to grow, albeit at a slower

pace. As per the latest ICRA report, the total portfolio of the new AHFCs in the affordable housing space stood at Rs. 55,061 crore as of September 30, 2020, and registered a moderate year-on-year (Y-o-Y) growth of 9% compared to the sector's overall negative growth. Although the growth is much lower than the 3-year average of over 30%, as per the rating agency, the long-term growth outlook for AHFC remains favourable, supported by several factors. At this current size, AHFCs accounted for around 5% of the overall Indian HFC market as of September 30, 2020.

ICRA estimates that the overall reported asset gross NPA% could increase to 3.6%-3.9% by end of March 2021 from 3.1% as of September 30, 2020, and stay at similar levels in FY2022 assuming growth is in line with its expectations. Over the long term, however, the ultimate losses to the lenders could be limited, given the secured nature of the loans through the recovery time could get extended further. These lenders have strengthened their balance sheets through additional Covid-19-related provisions and higher expected credit loss (ECL) provisions in FY2020 and H1FY2021.

The Regulator has also taken steps to infuse liquidity into the system via targeted long-term repo operations (TLTROs), which could increase the available liquidity. The Rs. 50,000 crores of additional TLTROs announced on April 17, 2020, and the additional Rs. 10,000 crore of refinance facility to National Housing Bank (NHB) will support the immediate liquidity requirements of HFCs to some extent, especially those operating in the affordable housing space where collections are likely to be impacted more.

III. Outlook:

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform which will help in allowing all kinds of investors to invest in the Indian real estate market. It would create an opportunity worth Rs 1.25 trillion (US\$ 19.65 billion) in the Indian market over the years. Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalization, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family-owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralized processes to the source material and organize manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The growing flow of FDI into Indian real estate is encouraging increased transparency. Developers, to attract funding, have revamped their accounting and management systems to meet due diligence standards.

The Indian real estate market has always been chaotic, due to constant mismatch in demand and supply. However, one segment that has frequently acted as its saviour when the chips are down, has been affordable housing. The fundamental reason behind this is that it is not just real estate, but a need for the masses. In the next half-a-decade, it will see a small-scale turnaround driven largely by the affordable housing sector. Almost 95% of the country's population consists of the striving middle class, and the demand in this sector is still huge while supply is limited and there are only a handful of dedicated developers.

Developers in the premier and luxury housing segment have been used to high-profit margins, whereas the margin in the affordable segment is 10%-15% only. Therefore, just like rapid digitization changed the focus from per-unit margin to transacting in volumes, real estate also needs to move towards the volume first model by catering to the demand in affordable housing. One also needs to understand that a majority of buyers in this segment are end-users,

therefore the chances of pricing fluctuations are much less as properties are not being bought for speculative purposes. On the other hand, affordable housing projects can also appeal to investors as projects under this segment invariably cost at least 25-30% less than other projects in the same vicinity but outside its ambit.

However, in the current pandemic situation ICRA Ratings expects the Covid-19 related slowdown in home loans extended by HFCs by 11%-13% in FY'2020. It expects the slowdown in home loan disbursements in the first half of FY'2021 as well. Recovery in the second half would be dependent on the overall economic turnaround.

People will likely defer their home purchases and home improvement/extension decisions in the current fiscal, till they can achieve stability in income levels and resumption of business activities.

IV. Risk management/ Internal control systems and their adequacy:

The company has a strong internal governance structure including an in-house audit and risk management team. The company has adopted risk management practices in its lending operation. Detailed credit and operational procedures are laid out in Board approved Credit and Operation policy and is reviewed periodically. Internal control system commensurate to the size of the organization and adequate.

V. Discussion on financial performance concerning operational performance

- **Target Areas / segment:**

As the company is positioned as an affordable home finance company, the target customer segments are the self-employed from the unorganised sector who are usually deprived of access to mainstream credit facilities from financial institutions. The Company has strengthened its presence in its area of operations with a keen emphasis on the unserved and under-served customer segments.

- **Region wise / geographic wise spread**

The company has a presence in 47 Indian locations across eight states (Maharashtra, Gujarat, Tamil Nadu, Kerala, Karnataka, Andhra Pradesh, Rajasthan, Madhya Pradesh & Odisha). The total AUM as of 31-03-2021 stands at Rs. 666 crores.

The Company is expanding its horizon to scale up Business to reach Rs. 1395 crores AUM by FY 2021-22.

The company has also started focusing on a micro-home loan of Rs 3 lacs- 5 lacs with an average LTV of 35% which could result in higher yield and better asset quality management.

- **Average ticket size business**

The company offers two products – Home Loans and Loan Against Property. The average ticket size of a Home Loan is about Rs. 9.00 lakhs and for the LAP segment, it stands at about Rs. 7.00 lakhs. Also, the company is bringing down the average ticket size by increasing focus on the micro home loan.

- **Business process/operations/system and IT**

The target segments are mostly self-employed people in tier II and tier III cities who are not served by the mainstream financial system. Direct branch interaction with customers takes place through on roll direct sales team. The majority of customer acquisition is made through a dedicated in-house sales team who interact with prospective borrowers and stay close to the market where transactions happened. The credit appraisal process involves meeting with customers, understanding cash flows, independent RCU verifications etc. The company is highly focused on a timely collection process. MAHOFIN uses one of the widely used end-to-end lending management applications to automate and assist business growth. As a part of digitization, the Company has introduced the “Mobile-Customer Acquisition System” (mCas) for faster processing of loan applications and “Mobile Collect” (M-Collect) for speeding up the collection process. Past few months, the Customers are facing locked down / quarantined due to a pandemic situation. Accordingly, the collection has somewhat affected. To conquer the situation, the company is adopting the digitalization measures of payments which will make the collection process more robust and provide various convenient mode of payment to customers at their doorsteps. Accordingly, Company has developed its mobile application and made a tie-up for making payments digitally and Airtel Payment bank provides local cash drops facilities to customers at its doorstep.

- **Funding /capitalisation**

The company has an arrangement with banks and financial institutions both in the Public and private sectors to augment the growth of the company. The company is in the process of sourcing funds from diversified sources. The company is well capitalised with the strong support given by its parent company and the current paid- up Capital is Rs.200 crore. The capital adequacy ratio is around 53%, as against the regulatory requirement of 15%. Apart from the above, the Company has applied for Special Refinance Scheme (SRF) to NHB.

VI. Material Development in Human Resources/Industrial Relations Front, including the number of people employed

The company has 465 highly dedicated and motivated staff who have been contributing relentlessly to the development of the organizations. Adequate training on Sales, Collections, KYC & AML, Customer Relationship, Technical, IT Security, Policy & Credit Processing etc is provided to staff to enhance their knowledge and capabilities.

In near future, the company is planning to give training on Legal & technical aspects to all its employees which shall help the employees to groom their skill sets.

Annexure-V

SECRETARIAL AUDIT REPORT

[Pursuant to Section 204(1) of the Companies Act, 2013 read with Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

For the Financial Year ended 31st March, 2021

To,

The Members

Manappuram Home Finance Limited
IV/470A(Old) W638A (new),
Manappuram House, Valappad,
Thrissur, Kerala – 680 567

We have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Manappuram Home Finance Limited** (CIN U65923KL2010PLC039179) (hereinafter called “the Company”). Secretarial Audit was conducted for the financial year ended on 31st March, 2021 in a manner that provided us reasonable basis for evaluating the corporate conduct / statutory compliances and expressing our opinion thereon.

On the basis of the above and on our verification of documents, books, papers, minutes, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of the Audit, We hereby report that in our opinion, the Company has, during the period covered under the Audit as aforesaid, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended 31st March, 2021 according to the provisions of:

- (i) The Companies Act, 2013 and the Rules made there under.
- (ii) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008.
- (iii) The Depositories Act, 1996 and the Regulations and Bye-Laws framed there under.
- (iv) The Securities Contracts (Regulation) Act, 1956 and the Rules made there under.
- (v) The Securities and Exchange Board of India (Registrar to an Issue and Share Transfer Agents) Regulations, 1993 regarding Companies Act and dealing with client.
- (vi) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (to the extent applicable to debt listed securities).
- (vii) The National Housing Bank Act, 1987.

- (viii) The Housing Finance Companies (NHB) Directions, 2010.
- (ix) The Housing Finance Companies Issuance of Non-Convertible Debentures on Private Placement basis (NHB) Directions, 2014.
- (x) Housing Finance Companies Corporate Governance (National Housing Bank) Directions, 2016.
- (xi) Non-Banking Financial Company – Housing Finance Company (Reserve Bank) Directions, 2021;

We have also examined compliance with the applicable clauses of the following:

- (i) the Secretarial Standards 1 & 2 issued by The Institute of Company Secretaries of India.
- (ii) Listing Agreement for debt securities entered into with BSE Limited in respect of privately placed non-convertible debentures issued by the Company.

Based on the information and explanation provided, the Company had no transactions during the period covered under the Audit requiring the compliance of the provisions of:

- a) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.
- b) The Foreign Exchange Management Act, 1999 and the Rules and Regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings.

We further report that

The Board of Directors of the Company is duly constituted with the proper balance of Executive Director, Non-Executive Directors and Independent Directors. The changes made to the composition of the Board of Directors was duly carried out during the period covered under the Audit.

Adequate notice and detailed notes on Agenda were given to all Directors at least seven days in advance to schedule the Board Meetings. There exists a system for seeking and obtaining further information and clarifications on the Agenda items before the Meeting and for meaningful participation at the Meeting.

Majority decision is carried through and recorded as part of the minutes. We understand that there were no dissenting members' views requiring to be captured in the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. However, we note that the National Housing Bank vide its letter dated 25th February, 2021 has levied a penalty of Rs.3,95,000 (at the rate of Rs.5,000/- per account) for inadequate assignment of risk weight in 79 NPA loan accounts which is a violation of Para 30 of the HFC (NHB) Directions, 2010.

We further report that during the period covered under the Audit, the Company has made the

following specific actions having a major bearing on the company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, referred to above:

- a. The Company has raised an amount of Rs.25 crores by issue of 250 Secured Redeemable Listed Non-Convertible Debentures (NCDs) of Rs 10 Lakhs each (Face value) on a private placement basis.

Date: 19th May, 2021

INDEPENDENT AUDITORS' REPORT

To
The Members of Manappuram Home Finance Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **Manappuram Home Finance Limited** ("the Company"), which comprise the Balance Sheet as at 31 March, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2021, and its profits, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 34 to the financial statements, which describes that the potential impact of the COVID-19 Pandemic on the Company's financial statements. Specifically, the provision for credit loss on financial assets is based on management's assessment and estimates of future developments, which are highly uncertain.

Our opinion is not modified in respect of this matter

Regd. Office: One International Center, Tower 3, 27th-32nd Floor, Senapati Bapat Marg, Elphinstone Road (West), Mumbai-400 013, Maharashtra, India.
(LLP Identification No. AAB-8737)

Deloitte Haskins & Sells LLP

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>Impairment of carrying value of loans and advances:</p> <p>The business of the Company is providing credit facility to retail borrowers in affordable housing, hence it is the main asset of the Company. To assess the amount of potential losses resulting from default by borrowers, the Management of Company exercises significant judgement using assumptions over both when and how much to record as provision for loans losses.</p> <p>Due to the significance of the judgments used in classifying loans and advances into various stages as stipulated in IND AS 109, determination of probability of default (PD), Loss Given Default and finally determining related impairment provision, this is considered to be the area that had a greater focus of our overall audit of the Company and a key audit matter.</p> <p>As at 31 March, 2021, the Company's gross loans and advances amounted to Rs. 67,346.49 lakhs and the related impairment provisions amounted to Rs. 2,116.81 lakhs. (Refer note no. 4 to the financial Statements)</p>	<p>Principal audit procedures performed:</p> <ul style="list-style-type: none"> We read the Company's impairment provisioning policy and assessed it for reasonableness; We gained understanding of the Company's key credit processes comprising granting, booking, monitoring, staging and provisioning. We tested design, implementation and operating effectiveness of key controls over these processes, controls over the completeness and accuracy of the key inputs into the impairment models and controls over staging, calculation of the PD and LGD based on past data and computation of the ECL provision. We tested the completeness of loans and advances included in the Expected Credit Loss calculations as of 31 March, 2021 For a sample of exposures, we tested the appropriateness of staging into Stage 1, 2 and 3; For testing the PD and LGD determined by the models, we tested data inputs and agreed a sample of data used in the models and calculators to source data and documents viz sanction letter, Loan agreement. Recomputed the ECL provision for the entire portfolio based on the PD and LGD determined as per the models. Reviewed and evaluated for reasonableness of management's assessment of the overlay impact of COVID-

**Deloitte
Haskins & Sells LLP**

	<p>19 on the ECL provisioning.</p> <ul style="list-style-type: none"> • Obtained written representations from management and those charged with governance whether they believe significant assumptions used in calculation of expected credit losses are reasonable. <p>We assessed the adequacy and appropriateness of disclosures in compliance with the Ind AS 107 in relation to ECL especially in relation to judgements used in estimation of ECL provision.</p>
--	--

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Director’s report but does not include the financial statements and our auditor’s report thereon.

- Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management’s Responsibility for the Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income , cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Deloitte Haskins & Sells LLP

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Deloitte Haskins & Sells LLP

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on 31 March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.

Deloitte Haskins & Sells LLP

- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company does not have any pending litigations which would impact its financial position
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Manappuram Home Finance Limited ("the Company") as of 31 March, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Deloitte Haskins & Sells LLP

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

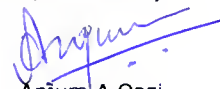

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us referred to in the Other Matters paragraph below, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2021, based on the criteria for internal financial control over financial reporting established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph "B" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i)(a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(i)(b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.

(i)(c) According to the information and explanations given to us and the records examined by us and based on the examination of the provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date.

(ii) To the best of our knowledge and according to the information and explanations given to us, the Company does not have any inventory and hence reporting under clause (ii) of the CARO 2016 is not applicable.

(iii) To the best of our knowledge and according to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable. The Company being a housing finance company, nothing contained in Section 186 of the Act, except sub-section (1), shall apply.

(v) According to the information and explanations given to us, the Company has not accepted any deposit during the year. In respect of unclaimed deposits, the Company has complied with the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013.

(vi) The maintenance of cost records has not been specified by the Central Government under section 148(1) of the Companies Act, 2013.

(vii) According to the information and explanations given to us, in respect of statutory dues:

- a) The Company has been generally regular in depositing undisputed statutory dues, including Provident Fund, Income-tax, Goods Service Tax, ESIC, cess and other material statutory dues applicable to it to the appropriate authorities

Deloitte Haskins & Sells LLP

We are informed that the provisions of Sales Tax and Excise Duty are not applicable to the Company and that the operations of the Company during the year did not give rise to any liability for Value Added Tax

- b) There were no undisputed amounts payable in respect of Provident Fund, Income-tax, Goods Service Tax, cess and other material statutory dues in arrears as at 31 March, 2021 for a period of more than six months from the date they became payable except as follows.

Name of the Statute	Nature of the Dues	Period	Amount (Rs.)	Due Date	Payment Date
Employees' State Insurance Act 1948 (ESIC)	ESIC	March 2020- August - 2020	15,389	Monthly dues are payable by 15 th of following next month	8, May 2021

- c) There are no dues of Income-tax, Goods and Service Tax, Customs Duty, cess and other material statutory dues as on 31 March 2021 on account of disputes.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to financial institutions, banks and government and dues to debenture holders.

(ix) The Company has not raised moneys by way of initial or further public offer (including debt instruments). Further, in respect of moneys borrowed through term loans and private placement of Debentures, in our opinion and according to the information and explanations given to us, the Company has utilized the money for the they were borrowed.

x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us, the Company has provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

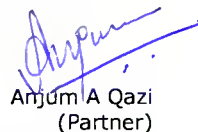

Deloitte Haskins & Sells LLP

(xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of CARO 2016 is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its holding, subsidiary or associate company or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Accounting Policies

Note 1: Corporate Information

Manappuram Home Finance Limited ('MHFL' or 'the Company') is a public limited company domiciled in India and incorporated on October 7, 2010 in Thrissur, Kerala. The Company is a Non-Deposit accepting Housing Finance Company registered with National Housing Bank (NHB) under the provisions of National Housing Bank Act 1987 ('NHB Act'). The Company is engaged in providing housing loans. The company's registered office is at IV/470A, (OLD) W/638A (NEW), Manappuram House, Valaped, Thrissur, Kerala - 680567 and corporate office is at Third Floor, A Wing, Unit No 301-315, Kanakia Wall Street, Andheri Kurla Road, Andheri East, Mumbai-400093.

The financial statements for the year ended 31st March 2021 were authorised for issuance in accordance with a resolution of the directors on 24th May 2021.

Note 2: Significant accounting policies

a. Basis of preparation

a.1 The Financial Statements have been prepared in accordance with the recognition and measurement principle of Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 (the "Act"), read with relevant rules Issued thereunder and other accounting principles generally accepted in India, requirements prescribed under the Schedule III - Division III of the Act, the circulars and guidelines issued by the Reserve Bank of India (the "RBI") and National Housing Bank (the "NHB") from time to time to the extent applicable. The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies below. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

a.2 **Going Concern-** These financial statements have been prepared on a going concern basis.

b. Functional and presentation currency

The financial statements are presented in Indian Rupees which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

c. Use of estimates, judgments and assumptions

The preparation of financial statements in conformity with the Ind AS requires the management to make judgments, estimates and assumptions, that affect the application of accounting policy and reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, at the end of the reporting period and reported amounts of revenues and expenses for the year presented. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

d. Recognition of Income

i.) Interest and similar Income

Under Ind AS 109 interest income and expenses is recorded using the effective interest rate (EIR) method for all interest bearing financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR.

The company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the company reverts to calculating interest income on a gross basis.

ii.) All other charges such as cheque return charges, overdue charges etc are recognised on realization basis. These charges are treated to accrue on realization, due to the uncertainty of their realization.

[Handwritten signature]

[Handwritten signature]

e. Property, Plant and equipment (PPE)

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates), and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses. When significant parts of property, plant and equipment are required to be replaced in regular intervals, the Company recognises such parts as separate component of assets. When an item of PPE is replaced, then its carrying amount is de-recognised from the balance sheet and cost of the new item of PPE is recognised. The expenditures that are incurred after the item of PPE has been put to use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the period in which such costs are incurred. However, in situations where the said expenditure can be measured reliably, and is probable that future economic benefits associated with it will flow to the Company, it is included in the asset's carrying value or as a separate asset, as appropriate.

Depreciation on Property, Plant and equipment is calculated on a straight-line basis using the rates arrived at based on useful lives estimated by the management.

The estimated useful lives are, as follows:

Particulars	Useful Life of Assets
Building	30 years
Computers	3 years
Furniture & Fittings	5-10 years
Office Equipment	3-5 years
Motor Car	8 years

Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

Property and equipment is derecognised on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in other operating income in the Statement of profit and loss in the year in which the asset is derecognised.

The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

f. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment loss. Intangible assets are amortized on a straight line basis over the estimated useful economic life. The company considers that the useful life of an intangible asset will not exceed 5 years from the date when the asset is available for use.

g. Assets Held for Sale

The Company classifies certain assets held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. In its normal course of business whenever default occurs, the Company may take possession of properties. The Company may physically repossess the properties either on its own or by engaging external agents to recover the funds generally at auctions to settle the outstanding debt. Any surplus funds are returned to the customers or obligors. As a result of this practice, the properties under legal repossession after receipt of Earnest Money Deposit as specified in its policy, are not recorded on the balance sheet as loans and are treated as assets held for sale. The Company currently records them in the financial statement at lower of loan amount outstanding or recoverable value as per the valuation report. Any deficit is transferred to profit or loss account.

Sanje

h. Impairment of non-financial assets

At each balance sheet date, the Company assesses whether there is any indication that any property, plant and equipment and intangible assets with finite lives may be impaired. If any such impairment exists the recoverable amount of an asset is estimated to determine the extent of impairment, if any. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Intangible assets not yet available for use, are tested for impairment annually at each balance sheet date, or earlier, if there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the Statement of Profit and Loss.

As at March 31, 2021, none of the Company's property, plant and equipment and intangible assets were considered impaired.

i. Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term and costs relating to the termination of the lease. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts.

Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether : (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. The higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cashflows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Bm

Anje

j. Retirement and other employee benefits

Provident Fund (Defined Contribution Plans)

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

Gratuity (Defined Benefit Plan)

For defined benefit plans, the cost of providing benefits is determined using the projected unit credit method with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in full in other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of (a.) when the plan amendment or curtailment occurs; (b) when the entity recognises related restructuring costs or related termination benefits . The retirement benefits / obligations recognised in the balance sheet represents the present value of the defined benefit / obligations reduced by the fair value of scheme assets. Any assets resulting from this calculation is limited to present value of available refunds and reductions in future contributions to the scheme.

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized in the Statement of Profit and Loss during the year.

Compensated absence

Compensated absence which are expected to occur within 12 months after end of the period in which the employee renders the related services are recognised as an actuarially determined liabilities at the present value of the obligation at the balance sheet date.

k. Taxes

Income tax expense comprises of current and deferred income tax. Current / Deferred tax is recognized in the Statement of Profit and Loss except to the extent it relates to an item which is recognized directly in equity or in other comprehensive Income in which case the related income tax is also recognised accordingly. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

i) Current Taxes

Current income tax expense includes income tax payable by the company on its taxable profits for the period. Advance tax and provision for income tax are provided after off setting advance tax paid and provision for tax arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liabilities on net basis.

ii) Deferred Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized. Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it becomes probable that future taxable profit will allow the deferred tax asset to be recovered.

Br

Sanjiv

l. Earnings per share

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to equity holders of the company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of company by the weighted average number of equity shares outstanding during the year plus dilutive potential shares except where results are anti dilutive

m. Provisions and other Contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current market assessment of time value of money and risk is specific to liabilities. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement in other operating expenses

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

n. Cash and cash equivalent

Cash and cash equivalents in the balance sheet comprise cash on hand and balances with banks in current accounts.

o. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past / future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

p. Determination of Fair Value

Fair value is the price at the measurement date, at which an asset can be sold or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

The fair values of financial instruments measured at amortised cost and disclosed in the said financial statements.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy described as follows:

Level 1 financial instruments – Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments – Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3

Level 3 financial instruments – Those that includes one or more unobservable input where there is little market activity for the asset/liability at the measurement date that is significant to the measurement as a whole.

q. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the Entity becomes a party to the contractual provisions of the instruments.

[Handwritten signature]

[Handwritten signature]

i. Financial Assets

Initial Recognition - All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the company commits to purchase or sell the asset.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in three categories:

- At amortised cost
- At fair value through other comprehensive income (FVTOCI).
- At fair value through profit or loss (FVTPL).

Financial assets measured at amortised cost

A 'financial asset' is measured at amortised cost if both the following conditions are met:

- a) The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement at fair value plus directly attributable costs, these financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Business model: The business model reflects how the company manages the assets in order to generate cash flows. That is, whether the company's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss. The amortised cost, as mentioned above, is computed using the effective interest rate method.

Financial liabilities

Initial Measurement

Financial liabilities are classified and measured at amortized cost. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent Measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method.

Impairment of financial assets

The company applies the expected credit loss (ECL) model for recognising impairment loss in accordance with IND AS 109. ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the company expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

The company assesses at each reporting date whether a financial asset (or a group of financial assets) such as loans and advances held at amortised cost for impairment based on evidence or information that is available without undue cost or effort. The company applies a three-stage approach to measuring expected credit losses (ECLs) for financial assets at amortised cost and loan commitments.

Stage 1: 12-months ECL

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The company has assessed that all loans with no default or upto 30 days default would fall under this category.

For these assets, 12-month ECL are recognized and interest revenue is calculated on the gross carrying amount of the asset (that is, without deduction for credit allowance).

Stage 2: Lifetime ECL – Significant Increase in credit risk

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. Financial instruments that have had a significant increase in credit risk since initial recognition are classified under this stage. 30 Days above Past Due is considered as significant increase in credit risk and classified under this category. For these assets, lifetime ECL are recognized, but interest revenue is still calculated on the gross carrying amount of the asset.

[Handwritten signature]

Stage 3: Lifetime ECL – credit impaired

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

Credit-impaired financial assets:

At each reporting date, the company assesses whether financial assets carried at amortised cost. A financial asset is 'credit-impaired' when a breach of contract such as a default or past due event that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Measurement of ECLs

The measurement of ECL reflects:

- The time value of money
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

ECLs are derived from best estimates of expected loss by the management, and are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls over the expected life of the financial asset discounted by the effective interest rate. The cash shortfall is the difference between the cash flows due to the company in accordance with the contract and the cash flows that the company expects to receive.
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows discounted by the effective interest rate.
- Undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the company if the commitment is drawn down and the cash flows that the company expects to receive.

Write-off

Loans and debt securities are written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the company's procedures for recovery of amounts due.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- Loan commitments and financial guarantee contracts: generally, as a provision;

Derecognition of financial assets and financial liabilities

Financial assets

The Company derecognizes a financial asset when the contractual cash flows from the asset expire or it transfers its rights to receive contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognized as a separate asset or liability.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

Offsetting

The company has not offset financial assets and financial liabilities.

3.1 Critical accounting judgements and key sources of estimation uncertainties

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

Expected Credit Loss

When determining whether the risk of default on a financial instrument has increased significantly since initial recognition, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and credit assessment and including forward-looking information. In certain cases, the assessment based on past experience is required for future estimation of cash flows which requires significant judgment.

The inputs used and process followed by the Company in determining the increase in credit risk and loss given default have been detailed in Note 34.

Total Reserves and Surplus

Nature and purpose of Reserves

Employee Share Option Outstanding : Shares of parent company has been issued to the employees of the company for rendering services. Expense of such shares has been booked by the company and corresponding increase to the equity has been shown in the reserves as other equity.

Statutory Reserve : Statutory reserve (Pursuant to section 29C of the NH8 Act, 1987 & Section 36(1)(viii) of Income Tax Act, 1961); Section 29C (i) of The National Housing Bank Act, 1987 defines that every housing finance institution which is a Company shall create a reserve fund and transfer therein a sum not less than twenty percent of its net profit every year as disclosed in the statement of profit and loss before any dividend is declared. For this purpose any special reserve created by the Company under Section 36(1) (viii) of Income tax Act 1961, is considered to be an eligible transfer. The Company has transferred an amount of Rs. 205.79 lakhs (P.Y. 211.27 lakhs) to special reserve in terms of Section 36(1) (viii) of the Income Tax Act 1961 considered eligible for special reserve u/s 29C of NH8 Act 1987.

Note 26: Retirement Benefit Plan

Defined Contribution Plan

The Company makes Provident Fund and Employee State Insurance Scheme contributions which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognized Rs. 96.33 lakhs as on March 31, 2021 and Rs. 111.49 lakhs as on March 31, 2020 for Provident and other Fund contributions, Rs. 12.14 lakhs as on March 31, 2021 and Rs. 17.01 as on March 31, 2020 for Employee State Insurance Scheme contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the Schemes.

Defined Benefit Plan

The Company has a defined benefit gratuity plan. Every employee who has completed 5 years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded with Rs. 95.76 lakhs as on March 31, 2021

Risks Associated with Defined Benefit Plan :

Gratuity is a defined benefit plan and the Company is exposed to the following risks:

Interest rate risk: A fall in the discount rate which is linked to the Government Securities. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk: The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk: The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk. **Mortality risk:** Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

The following tables summarises the components of net benefit expense recognized in the statement of profit and loss and the funded status and amounts recognized in the balance sheet for the gratuity plan.

Statement of Profit and Loss

Net employee benefit expense recognised in the employee cost

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Current service cost	33.43	30.53
Past Service Cost	-	-
Loss/Gain from Settlement	-	-

Balance Sheet

Reconciliation of present value of the obligation and the fair value of plan assets:

Particulars	As at	As at
	31 March 2021	31 March 2020
Defined benefit obligation	210.70	144.01
Fair value of plan assets	114.94	91.59
(Asset)/liability recognized in the balance sheet	95.76	52.42
Funded Status (Surplus)/(Deficit)	(95.76)	(52.42)
Of which, Short term liability	-	-
Experience adjustments on Plan liabilities (Gain) / Loss	23.84	(9.04)

Changes in the present value of the defined benefit obligation are as follows:

Particulars	As at	As at
	31 March 2021	31 March 2020
Opening defined benefit obligation	144.01	77.95
Current service cost	33.43	30.53
Past Service Cost	-	-
Loss/(Gain) from Settlement	-	-
Interest cost	8.91	7.30
Benefits paid	(13.38)	(5.69)
Re-measurements		
Actuarial loss / (gain) from changes in demographic assumptions	(8.87)	-
Actuarial loss / (gain) from changes in financial assumptions	4.86	11.94
Actuarial loss / (gain) from experience over the past year	23.84	(9.04)
Transfer In/Out	17.90	31.02
Closing defined benefit obligation	210.70	144.01

Changes in the fair value of plan assets are as follows:

Particulars	As at	As at
	31 March 2021	31 March 2020
Opening fair value of plan assets	91.59	52.90
Contributions by employer	15.00	9.14
Transfer In/Out	15.13	32.81
Benefits paid	(13.38)	(5.69)
Interest income on Plan Assets	5.04	4.35
Re-measurements		
a. Actuarial (Loss)/Gain from changes in financial assumptions	-	-
b. Return on plan assets excluding amount included in net interest on the net defined benefit liability/ (asset)	1.56	(1.92)
c. Changes in the effect of limiting a net defined benefit asset to the asset ceiling	-	-
Closing fair value of plan assets	114.94	91.59
Actual Return on Plan Assets	6.60	2.43
Expected Employer Contributions for the coming year	50.00	50.00

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

Particulars	As at	As at
	31 March 2021	31 March 2020
Salary Escalation	8.00%	8.00%
Discount rate	5.00%	5.50%
Attrition rate		
- Managerial grade and above	15.00%	15.00%
- Below managerial grade	50.00%	50.00%
Expected rate of return on assets	5.50%	6.70%

Investments quoted in active markets:

Particulars	As at	As at
	31 March 2021	31 March 2020
Investment funds with Insurance Company	100%	100%
Of which, Unit Linked	0%	0%
Of which, Traditional/ Non-Unit Linked	100%	100%

Assumptions

Sensitivity Level

1. Increase/(decrease) on present value of defined benefits obligation at the end of the year	As at	As at
	31 March 2021	31 March 2020
(i) One percentage point increase in discount rate	(9.49)	(7.75)
(ii) One percentage point decrease in discount rate	9.74	8.64
(i) One percentage point increase in rate of salary growth rate	9.38	8.35
(ii) One percentage point decrease in rate of salary growth rate	(9.32)	(7.65)
(i) One percentage point increase in withdrawal rate	(2.52)	(2.29)
(ii) One percentage point decrease in withdrawal rate	2.67	2.42

Expected payment for future years	As at	As at
	31 March 2021	31 March 2020
Within the next 12 months (next annual reporting period)	65.04	30.99
Between 2 and 5 years	200.85	145.51
Between 5 and 10 years	131.64	176.87
Total expected payments	397.53	353.37

The weighted average duration of the defined benefit obligation as at 31st March 2021 is 3 years (31st March 2020 : 3 years)

The fund is administered by Life Insurance Corporation of India. The overall expected rate of return on assets is determined based on the market prices prevailing on that date, applicable to the period over which the obligation is to be settled.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The principal assumptions used in determining leave encashment obligations for the Company's plans are shown below:

	As at	As at
	31 March 2021	31 March 2020
Discount rate	5.00%	5.50%
Attrition rate		
- Managerial grade and above	15.00%	15.00%
- Below managerial grade	50.00%	50.00%
Salary escalation	8.00%	8.00%

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

The estimate of future salary increases considered, takes into account the inflation, seniority, promotion, increments and other relevant factors.

Note 31: Capital

Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Capital Adequacy Ratio	As at 31 March 2021	As at 31 March 2020
Common Equity Tier1 (CET1) capital	51.91%	52.43%
Other Tier 2 capital instruments	0.95%	1.00%
Total capital	52.86%	53.43%

Regulatory capital	As at 31 March 2021	As at 31 March 2020
CET1 capital	19,917.30	19,192.09
Total capital	19,917.30	19,192.09

Regulatory capital consists of CET 1 capital, which comprises share capital, share premium, retained earnings including current year profit less accrued dividends.

Particulars	As at 31 March 2021	As at 31 March 2020
Net Debt	43,927.04	42,984.94
Total Equity	20,969.42	19,983.17
Net Debt to Equity Ratio	2.09:1	2.15:1

Note 32: Segment Reporting

The Company's main business is Financing Activity. All other activities of the Company revolve around the main business. As such, there are no separate reportable segments, as per the IND AS 108 "Operating Segments" which is specified under section 133 of the Companies Act, 2013.

The block contains two circular blue ink stamps. The first stamp is for Deloitte Haskins & Sells LLP, featuring a stylized 'A' logo. The second stamp is for Manappuram Home Finance Ltd. To the right of these stamps are two handwritten signatures in blue ink.

Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques. In normal course of business of the company, the company physically reassesses the properties either on its own or by engaging external agents to recover the funds generally at auctions to settle the outstanding debt. Any surplus funds are returned to the customers or obligors. As a result of this practice, the properties under legal repossession after receipt of Earnest Money Deposit as specified in its policy, are not recorded on the balance sheet as loans and are treated as assets held for sale. Current assets worth of Rs.47,20 lakhs which are held for sale, are classified as level 3 on the basis of distressed valuation.

Valuation methodologies of financial instruments not measured at fair value :

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained.

Financial Assets and Liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include : cash and balances, balances other than cash and cash equivalents, trade payables and contract liability without a specific maturity. Such amounts have been classified as level 2 on the basis that no adjustments have been made to the balances in the balance sheet.

Valuation techniques

Valuation techniques with significant unobservable inputs (Level 3)- This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

 Notes to Financial Statements

Note 34: Risk Management

Risk is an integral part of the Company's business and sound risk management is critical to the success of Healthy Business Model. As a financial intermediary, the Company is exposed to risks that are particular to its lending and the environment within which it operates and primarily includes credit, liquidity and market risks. The Company has a risk management policy which covers risk associated with the financial assets and liabilities. The risk management policy is approved by the Board of Directors.

The Company has identified and implemented comprehensive policies and procedures to assess, monitor and manage risk throughout the Company. The risk management process is continuously reviewed, improved and adapted to the changing risk scenario and the agility of the risk management process is monitored and renewed for its appropriateness in the changing risk landscape. The process of continuous evaluation of risks includes taking stock of the risk landscape on an event-driven basis.

The Company has an elaborate process for risk management. Major risks identified by the businesses and functions are systematically addressed by implementing required preventive, detective and corrective controls, and through mitigating actions on a continuing basis.

a. Credit Risk

Credit risk is the risk of loss that may occur from defaults by our Borrowers under our loan agreements. In order to address credit risk, we have stringent credit risk assessment policies for client selection. The Credit policy is approved by Board of Director and changes in credit policies placed before the board for approval. Measures such as verifying client details, proper documentation and the usage of credit bureau data to get information on past credit behaviour also supplement the efforts for containing credit risk. There is a thorough client due diligence process in place which includes verification through both internal employees of the company and external due diligence agency.

We also follow a systematic methodology in the opening of new branches, which takes into account factors such as demand for credit in the area, income and market potential, and socio-economic and law and order risks in the proposed area. Further, our client due diligence procedures encompass various layers of checks, designed to assess the quality of the proposal and to confirm that it meets the structured credit assessment parameters laid down by company's credit policy and process.

In order to mitigate the impact of credit risk in the future profitability, the company makes provisions based on the expected credit loss (ECL) model for the outstanding loans at all balance sheet date.

The below discussion addresses the Company's approach for assessing impairment, as stated in the significant accounting policies.

The Company considers a financial assets delinquent and therefore Stage 3 (credit impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

Estimation of uncertainty related to the global health pandemic from COVID-19 (COVID-19)

The outbreak of COVID-19 pandemic across the globe and in India has contributed to a significant decline and volatility in the global and Indian financial markets and slowdown in the economic activities. Further, the management of the Company, based on current available information, has considered certain factors on the policy of the Company for the purpose of determination of the provision for impairment of financial assets earned at amortised cost. Based on the current indications of future economic conditions, the Company considers these provisions to be adequate. Given the uncertainty over the potential macro-economic impact, the management has considered internal and external information up to the date of approval of these financial statements.

The extent to which the COVID-19 pandemic, including the current "second wave" that has significantly increased the number of cases in India will continue to impact future results of the Company will depend on the current as well as future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and any action to contain its spread or mitigate its impact; whether government-mandated or elected by the Company. Given the uncertainty over the potential macro-economic condition, the impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions, which will be given effect to in the respective future period.

Exposure at Default (EAD)

The outstanding balance at the reporting date is considered as EAD by the Company. Considering that the PD determined above factors in amount at default, there is no separate requirement to estimate EAD.

The Company uses historical information where available to determine PD. Considering the different products and schemes, the Company has categorised its loan portfolio into various pools. The PD is calculated using incremental NPV approach considering fresh stoppage of past 3 years.

Loss Given Default

The Company determines its recovery rates by analysing the recovery trends over different periods of time after a loan has defaulted. Based on its analysis of collateral valuation, the Company has assessed that significant recoveries happens within 2 years from the year of default. In estimating LGD, the company reviews macro-economic developments taking place in the economy.

(Handwritten signature)

b. Liquidity Risk

Liquidity risk refers to the risk that the Company may not meet its financial obligations. Liquidity risk arises due to the unavailability of adequate funds at an appropriate cost or tenure. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for loans as per requirements. The Company consistently generates sufficient cash flows from operating and financial activities to meet its financial obligations as and when they fall due. Our resource mobilisation from sources include deposits from multiple sources, including from banks, financial institutions and capital markets to maintain a healthy mix of sources. The resource mobilisation team is responsible for identifying fund raising sources; managing interest rate risk and maintaining a strong relationship with banks, financial institutions, mutual funds, insurance companies, other domestic and foreign financial institutions and rating agencies to ensure the liquidity risk is well addressed.

The table below provides details regarding the contractual maturities of significant financial assets and liabilities as on:

Maturity pattern of assets and liabilities as on March 31, 2022:

Particulars	1 to 7 days	8 to 14 days	15 to 30 days	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
Borrowings*	25.10	327.72	1,207.21	2,095.84	5,766.75	7,930.10	21,483.78	3,948.80	44,522.25		66,628.85
Loans**	229.21	101.94	36.46	243.01	215.87	797.54	2,609.00	7,797.37	13,766.15	41,777.17	66,628.85

* Maturity pattern is including the adjustment of processing fees and NCD issue expenses.

** The information on the maturity pattern is based on the reasonable assumptions made by the management. The AS adjustments are not considered in above maturity pattern.

Maturity pattern of assets and liabilities as on March 31, 2020:

Particulars	Upto 1 month	1 to 2 months	2 to 3 months	3 to 6 months	6 months to 1 year	1 to 3 years	3 to 5 years	Over 5 years	Total
Borrowings	519.97	790.22	2,696.72	3,612.27	18,030.11	11,007.87	4,095.76	32,984.94	63,774.86
Loans	181.57	184.55	186.82	575.29	1,217.72	5,855.77	11,921.28	42,155.37	62,774.47

c. Market Risk

Market Risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market factor. Such changes in the values of financial instruments may result from changes in the interest rates, credit, liquidity, and other market changes. The Company is exposed to two types of market risk as follows:

d. Interest Rate Risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

We are subject to interest rate risk, principally because we lend to clients at fixed interest rates and for periods that may differ from our funding sources, while our borrowings are at both fixed and variable interest rates for different periods. We assess and manage our interest rate risk by managing our assets and liabilities. Our Asset Liability Management Committee evaluates asset liability mismatch, and ensures that all significant mismatches, if any, are being managed appropriately.

The Company has Board Approved Asset Liability Management (ALM) policy for managing interest rate risk and policy for determining the interest rate to be charged on the loans given.

The following table demonstrates the sensitivity to a reasonable possible change in the interest rates on the portion of borrowings affected. With all other variables held constant, the profit before tax affected through the impact on floating rate borrowings, as follows:

	Year ended 31 March 2021	Year ended 31 March 2020
Finance Cost	4,203.72	3,931.59
0.50% increase	4,432.23	3,978.20
0.50% decrease	3,985.21	3,554.88

e. Price Risk

The Company's exposure to price risk is not material and it is primarily on account of investment of temporary treasury surpluses in the highly liquid debt funds for very short durations. The Company has a board approved policy of investing its surplus funds in highly rated debt mutual funds and other instruments having insignificant price risk, not being equity funds/ risk bearing instruments.
